

Some Useful Information

No Piano, No Problem

If the venue doesn't have a piano - then I am happy to provide a digital one at no extra charge. For a small additional charge of £50 I can also provide a digital baby grand piano (shown below) which looks more like an acoustic instrument. The piano has to be put together at the venue and it cannot be re-assembled very easily. It is assembled with bolts and screws and re-assembling it increases wear and tear dramatically - that is why I have to charge £50 for it's use. If you need music in more than one location at a venue I would also need my other normal digital piano.

Digital Baby Grand Piano

Arrival Time

I always plan to arrive at the venue at least 2 hours before I start playing. This is in order to set up and familiarise myself with the venue.

Outside Performances

I can perform outside, but I do need cover to protect myself from the elements. I can provide a quality gazebo (at no extra charge), but I do need to know in advance.

Other Services

I can provide a gazebo, radio microphone for speeches, additional PA system for discos, lights and all sorts of other extras.

Public Liability and PAT Test Certificates

I am covered for up to £10,000,000 Public liability and all of my electrical equipment has been PAT tested. The documents are available on request by the venue
