

Seat Guests Quickly

A complete solution to waitlist management that offers the flexibility customers want and the simplicity restaurants need.

Simplify The Wait

Restaurants understand the importance of seating guests quickly and need a solution to simplify the waiting process. On Cue for Restaurants is the easiest-to-use app equipped with fast guest entry, status indicators and table management. This complete solution allows guests the option to be notified either by text message or by a classic restaurant pager and provides the host the flexibility they need to manage the waitlist.

Easiest App to Use

Handle any volume of customers with On Cue's simple entry system. Get customers on the waitlist quickly with ease.

Options for your Guest

Guests appreciate having the option to be notified via text or pager.

Table Management

View and update table availability to quickly seat guests and turn tables

HOW IT WORKS

- 1 Assign**
Guests will either receive a pager or opt to be notified via text message when their table is ready.
- 2 Notify**
Guests are texted or paged immediately when their table is ready.
- 3 Respond**
Guests report to the hostess stand to be seated.

COMPATIBLE PAGING SYSTEMS

- TX-TC Transmitter
- Any LRS guest pager

GETTING STARTED IS FREE

On Cue is now available in the Apple app store. Download the app and receive 300 texts. Premium text packages begin at £39.99.
